If all contact me the next issue will contain the line ups--- and the starting date--- and get under way. Please contact me by the 2nd of July.

The deadline for the Fall

missed moves on this date. For the next couple of moves Steve

is all but the press, held over from last issue--

HARAD-DUR: Emperor Sauron of Middle-earth today denounced the
radical-libs of Rhovanion. "Anyone who'd vote for a gaint chicken
to run things because he is a member of a minority group must be
nuts. Why can't they be regular guys like my buddy Ar-Pharazon II
of Gondor?"

DAGORLAD: Patrols of Umuk-Hai were seen going out into the
wilderlands with giant chicken traps and buckets of corn, calling
"here Chic, Chic, Chic." It is believed by your elven correspondent
that they mean harm to the ruler of Rhovanion.

HARADDER: Emperor Sauron with his court and Ar-Pharazon II are
here to enjoy the surfing until the spring thaw when the ice
melts off Rhovanion and Arror.

BC: Great Battle? The battle for which Battle Creek (River and town) was named after, saw ONE Indian jump TWO surveyors, who managed to chase him off, Golliwockies.

ZOOLAND(BURP) Rumors have it that it wasn't just one Indian, but the Flying Dutchie Boy himself, that jumped the Two surveyors, and that is why the battle has been recorded!

BLOOD AND IRON: Marquette can save himself only by an alliance with Otsago. In Tag vs Liar, the former has an insurmountable advantage in its fleet in IKS. Is it Zealand-Wayne vs the State? It looks strong, very strong. Perhaps the designer was a little careless at both ends of the state?

FESTUNG BELLEVUE: The KING rested from the past weeks' labors, and conferred with the Lord of Outer Space.

"There be troubles aise in the Realm, sir."

"Aye," answered the Lord of Light. "I believe the Prince of Zealand is stirring dissension again. It is even rumored that the Flying Dutchie Boy—as he speaks, he spat—is about to reappear to violate the laws of the Realm. Duke John High-hand has overthrown the Prince of Forests, and the Lord of the North will settle the matter. He may even cleanse Zoeland. The Prince of Darkness, now in league, may help Black Michael on his way back to Orionesse, Ay, down with Hypocrit Junction, down with Youngtown, down with New York, down with the EAST. But it is fortunate that Chicago and Long Beach (nest of the SIGLies) have never penetrated this Realm, else the Hosts of Orionesse would be forced to march, to dispose of the infection. As much as possible WE allow OUR subjects to resolve their own differences."

And the KING returned to more important matters.

ZOOLAND(MEDP) Rumors have it that after the long winter, the Flying Dutchie Boy has made a come back stronger than ever. It has been noted that Trips to the Palace of the Prince of Forests, and to Duke John's have produced strong allies, in the case of war. The Rapids that are Grand, have come forth under the banner of the FDB, as have the subjects of the Valley that is Grand. Plans are being made for allies from Chicago and New York, as the FDB makes plans for trips to set up bases of operations with in the other states. Even Herr Iker of Hill has expressed interest in the banner of the Flying Dutchie Boy.

ORIONESSE: Let it be known: The peoples of Orionesse (known to the unwashed by the misnomer of "Battle Creek") will challenge the Free Republic of Grand Rapids to a tournament. We congratulate the people of the Republic for throwing off the yoke of Herdism, as they seem to have done very recently.

IKS: To a waving and cheering crowd, the Lord of the North set sail, for the Southern Places. He would be gone for a year yet the state would carry on. "My people, I leave you with a heavy heart. Long must I toil in the southern climates, but I shall return HERE renewed and strengthened with will, to serve you and carry on our crusade to purge the UP."

The defiant III, then stemmed down river to the accompaniment of the Viking lament as crowds lined the shores of the St. Mary's River.

As the twilight fell upon the ships, the faint booming of battle was heard as the 1st Army forced its way into the sea coast of Grand Marais. The glow from the battle blended into the subtle reds, yellows and oranges of yet another fantastic UP sunset.

SAULT STE MARIE- Ministry of Public Works- It was announced today that work has begun on the Sault Dam, to connect the Sault and Gouais. Also, the Dam will provide a bridges into Canada so as to permit rapid flow of Canadians south.

KALASKA; General Octavo Duodécimo today from his temporary Head quarters at Stittville announced that the province of Kalaska would hence forth be a protectorate of Benzonia and proclaimed himself Governor-General. His first official act was to declare the swineherd (who was mentioned in the spring communique) guilty of guerrilla activities and sentenced to bed without supper. The pigs, however, because of their direct resistance and open hostility to the Royal Corps II were all executed. The General ordered his personal chef to dispose of all the carcasses.

ZOOLAND(MDP) Pork prices took a turn downward today on the the markets. It seems as though the state is swarming with Pigs.

MACKINAW CITY: A message from the Benzonian Grand Fleet follows in full: During the passage of Sturgeon Bay one dark and stormy night there suddenly appeared from through the gloom a vast armada of sailing vessels. Not wishing to become a victim of a clever enemy ruse, the Commodore ordered all ships to fire upon the approaching flotilla. Each and every unidentified craft was sunk without a loss to the grand fleet.

It was later determined upon arriving at Mackinaw City that the sailing vessels encountered in Sturgeon Bay were all entrants in the Chicago to Mackinaw Yacht Race. The sloop Guspidoon was declared the winner of the race by virtue of the capture of a sloop bearing its name that drifted over the finish line. The incident remains a glorious victory for the Grand Fleet and serves as a warning to Benzonia.

ZOOLAND(MDP) Upon hearing the news that the entire racing fleet had been wiped out, the owners decided that they would put out another fleet. This time they would be joined in action with the Grand Fleet, that destroyed their fun. This fleet of no less than 100 men of war set sail for Chicago. It is ventured that by winter the Benzonian will all be sunk.

TRAVELER CITY; King Rupert returned to his Winter Palace here and was relieved to discover that the flatus scare had ended. A research team from Potawatomi Polytech have determined that the chromatography analysis of the gas gives Saginawian beans as the cause of the problem. Once again Saginaw seems to be behind a malicious plot to ridicule Benzonia and its King, and King Rupert strongly urges that collection of scabbers to be very successful about provoking the full fearsome anger of Benzonia.

ZOOLAND(MDP) Shut up for months.

King Rupert, the Pervert, announced that he would no longer tolerate that gas that Saginaw was giving him. He has decided that no one in Benzonia will part take of the beans of the laborer of Saginaw. From this day forward there will be no Benzonian tales of the people of Benzonia, and not only that, but they will not be allowed to have bean stalks on which to climb up and see the giants. One wonders how Rupert will get home, or out of his home.
