PRESS: LONDON: In the view of the treatment given to diplomats from the United States by the German Government recently the Prime Minister has decided to vastly increase our diplomatic muscle in Berlin. As part of his program he ordered the immediate mobilization of the II Army and ordered the fleet to the North Sea. It is sincerely hoped that these drastic measures will persuade Hitler to abandon his evil designs.

Press: USA: Due to turmoil which is starting to rage in Europe, The United States has found it necessary to break its policy of neutrality. This is done in the interest of maintaining world peace.

With the size of Stench growing I will probably start putting in articles on WWII. If you want to write some up that would be fine. I'd also be providing forth my own ideas. I would like to note that I'm going to start an WWII sine archives. I would there fore like to know if you know of people that put them out so I can set up a trade.
