S-II PRESS: TOURS: Blum has decided that even though the Eastern rebellion appears to be quelled, it would be advisable to seek an understanding and help of the British. At first some thought this a stupid move, but soon they were brought around by Hitler's swift take over of Cze.

TRAVELS(BOAST) It is rumored that it was not the swift take over of Cze, but the swift take over of Blum that has changed things around. Blum is in control of all things that he does?
