The Russian Retreats, as shown above, were Warsaw to Volhynia and Rumania to Bessarabia. The Russian Removals were Fleet Kattegat, Army Vologda, & Army Vilna. France Builds One, Germany Builds Two, & Austria-Hungary Builds One.

If I receive the Build orders in September, I will publish them. Then Charles Turner or someone else may publish the Spring 1917 moves. It is obvious to me that I won't have time to take over the game.

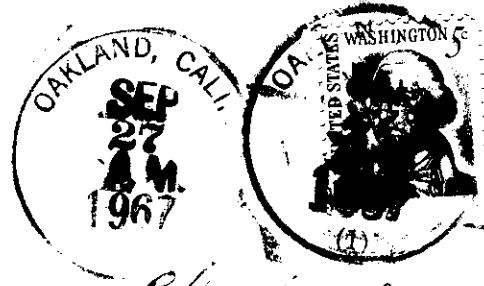

XENO #3 is in the mail. If you don't get a copy - let me know. The press releases in XENO are off to a good start. I hope to publish most of all the press releases I receive for XENO. I won't butcher them up like I've done in Wild 'n Woolly.

KALMAR will be out in a week or 10 days. There is a Game Master's ruling pending in the 1966KR game but moves for the other 4 games are in the mail. If you haven't heard about 1967KR, 1966KV, 1966KT, or 1966KS recently - again, let me know.

Also, we're moving this month and probably again the next month.
