moves are in already. Everyone else gives?

Spring 1906 Retreats

1966KN

(London) Praise be to God!

There is no force on earth like the Russian steam-roller,
especially when England and Turkey are her willing satellites!

Cheers for the Pax Muscovy!

And as for the Frenchmen; May they -----!

(Albania) Crown Prinz Engen wishes to be the first to congratulate Russia
on its coming victory.

"In the light of the long obvious Austro-Hungarian-Russian co-
operation," the Prinz remarked, "I'm sure that this statement will come
as no surprise to the surviving powers. Long Live the Imperial Hungarian
satellite of Russia!"

That intrepid reporter, Jim Danny, has been exposed as an agent of
the international Swiss conspiracy!

"Why sure, Jim Danny has been our Turkish "stringer" for the last
2 years," said K. F. co-editor of the International Enquirer. "Its amazing,
the double-agent job that he's done as a reporter for us. He really kept
that Turk+sh Sultana keleving a line."

Spring 1906 Retreats

1966KN

ITALY ARMY TYROLIA TO VENICE
AUSTRIA-HUNGARY ARMY SERBIA TO TRIESTE

Most of the moves are already in but in case you wish to revise
them; Postmark Deadline: Fall 1906 moves; January 6, 1967

Fall 1910 Retreats & Builds

1965KQ

(Palace of the Golden Horn) Let the Austrian ___ know that he will be destroyed! and that the hand of the Sultan aided in his doom! When the Austrian was faithful to his treaties with the Sultan, Russia was no more than a patch upon the earth's great quilt, her entire force absorbed with defending her south end! The Austrian treacherously broke the treaty, even though the Sultan had neglected the best interests of Turkey in the name of the alliance, and had even helped to prepare the invasion of Italy by Austria to demonstrate Turkish good faith. Now Austria lies ready for the final Russian Victory! His Capitol is occupied by Germans. His Empire is stripped of its power by the Russian fleets and armies, and the Sultan delights in his Agony!

Fall 1910

1965KQ

AUSTRIA_HUNGARY Fleet TUNIS TO THE IONIAN SEA
REMOVE ARMY SERBIA

GERMANY BUILDS ARMY BERLIN

RUSSIA BUILDS ARMY WARSAW & ARMY MOSCOW

TURKEY BUILDS ARMY ANKARA

ADDRESS CHANGE: TURKEY Jerry Pournelle
12051 Laurel Terrace
Studio City, California

POSTMARK DEADLINE: Spring 1911 moves; January 24, 1968

JANUARY 1968 has been declared National Stab Jim Dygert In The Back Month. Everybody stab Jim Dygert in some game or another!

New XERO rule: When ships moving from one Sector to another meet ships of another player moving in the opposite direction; they may engage in "Deep Space Conflict" Such conflict will lengthen the travel time from one Sector to another. Of course, this only matters to the survivors of the conflict.

In Deep Space Conflict, the two opposing fleets enter a 256 by 256 by 256 grid and may move up to 16 points in a straight line (or an equivalent distance diagonally) and may enter the grid on any point on the surface (256 by 256). On the first turn thus, you may possibly come within 225 points of the enemy. The positions will be published! Neither side will have any defensive screens. All ships may fire missiles as if they were at Tech level VII and all ships may fire "Phasers" (a short-range weapon). More on this in XERO 5 or 6.
