WE STILL NEED AN ADDRESS FOR MISS LINN WEIL !!!

We could play a dandy game on the Mobil Oil game map.

And someone MUST design a game on one of the more popular versions of the map of the Moon being distributed by Banks, Savings Cos., Gas stations, etc.

Of course, Luna Diplomacy will require special types of units. Perhaps the Pentagon could advise us as to what types of units will be used?

We'll get together the game of Kalmar's com Variant as soon as three of the Kalmar games end. The next WILE and Wooly game may not start until 1971.
