Fall 1901

1966KN

(Rome) Her Majesty expresses shock and amazement at the Declaration of War made by Austria-Hungary. Their attack was not provoked by any action by the Italian government, but an open act of belligerence against a peaceful country. Who shall join Italy in a Holy Crusade against the aggressor? Magyar Delendaest!

(Vienna) Krown Prinz Engen Converts to Anglican! Inside information has it that this action was taken in view of the current hostilities between Italy and the Empire.

"I've always liked Archbishops better than Popes, anyway," the Krown Prinz said, "and we'll see how the Italian-Double-Crossing-French Alliance holds up under pressure from the North and East!"

(Constantinople) Who ever heard of talking fish? No wonder we are forbidden to drink wine!

CORRECTIONS

1965KN

The errors were made by the Gamesmaster, not the players.

First correction; Italy's Fleet Apulia is hereby removed because Italy owns only 11 supply centers; Venice, Rome, Naples, Portugal, Spain, Marseilles, Tunis, Sevastopol, Constantinople, Ankara, & Smyrna. Sorry, John.

Second correction; Austria-Hungary's Fleet Aegean Sea retreated to the Eastern Mediterranean instead of Smyrna. Honest fellows, I'll be all right soon.

"Hooray, hooray, I'm going out to play -
With the man in the little white coat!"

John McCallum advises me that this should have been 1908 instead of 1907.
 I'll find out as soon as I get my things together. Superhuman ineptitude.
