(Vienna) Count Dracula 007 has mysteriously dissappeared. Close friends of his ((his "close" friends seem to be those who hold some of his I.O.U.'s)) at the Grande Casine are reported to be very agitated over his dissappearnace. Many bad things have been said about both the German and Russian agents who abound throughout Austria-Hungary. There are also some unconfirmed rumours that Phillip Biebermann may have been involved in his possible kidnapping. Who knows?
