To the question, "Who's playing for San Diego?". That I cannot answer. I think he's trying to get someone else to take over, anyway.

POSTMARK DEADLINE: Fall 1902 moves; July 11, 1967

We would attempt to get a replacement player for 1967KX but it appears as though the swift and violent attacks by Reinsel & Davidson have made the other positions unplayable.

However, we are looking for a replacement player in the 1967KY game. The Spring 1902 moves will take place soon and perhaps we'll have a replacement in the game for the Fall 1902 moves. No fee.

Does this mean that I have all the games I can handle? Perhaps.
There are some who would say so. I STILL NEED PLAYERS FOR XENO.
But, outside of XENO, I won't be starting any new games for a while.

We've been getting alot of complaints about our late publishing. So,
we will go back to being strict about the Postmark Deadlines again. This
is going to cause a lot of armies to stand still, particularly in the
KALMAR games. Does anyone know where John Videtto is? We'll have to
give him a free game, I guess. He's probably being shot at.
