EAT ^{California} GRAPES!

"The Bavarian Illuminutti want you!"

Yes, alas, this is WILE 'N' WORRY, the more-or-less successor to Dan Brannan's WILD 'N' WOOLY, back again to try to finish off his games. By George, we made it, too, this time! Anyway, there are no game openings, or even openings, but subscriptions may be had for \$1 for 10 issues. This thing goes free to those who are still in games. This is Pandemonium Publication #165, and was edited and published by Rod Walker, 5058 Hawley Blvd., San Diego CA 92116; 'phone (714) 282-1921; member, NFFF GB Diplomacy Division and IPW Diplomacy Society.

Special Notice: Due to my summer job, I will not be home nights. You may call in your orders, if you wish, and Bonnie will take them down. I will not, however, be able to call you (collect or otherwise). I am therefore suspending entirely my policy of calling collect for moves until this Fall. You may, of course, still send in Sealed Orders or call me.

OOOOOOOPS!!

1966Z

again

FRANCE proposes, seeing that we have a near deadlock along a line from Tunis to Berlin, that the game be declared a four-way draw.

The GM says: if all players agree to a four-way draw, it will be declared. Please send a "yes" or "no" vote with your Fall 1910 moves. I have already registered France as voting "yes". Anybody who does not vote will be considered as voting with the majority; in order words, if I get two "yes" votes, and two of you don't vote, so far as I am concerned, all of you voted "yes". And the same with "no" votes, of course.
